Mediajambi.com - Governor Al Haris attended the Installation and Oath-taking Ceremony of the Head of the Provincial Ombudsman RI Jambi for the 2021-2026 term at the Provincial Ombudsman Office in Jambi, Tuesday (02/11/2021).

In the installation of the Head of the Provincial Ombudsman RI Jambi, Governor Al Haris acted as a witness. The Chairman of the Provincial Ombudsman RI (ORI) Mokhammad Najih installed Saiful Roswandi as the Head of the Provincial Ombudsman RI Jambi for the 2021-2026 term.

The existence of the Ombudsman is very important in supervising the management of public services, especially those implemented by the government, because truly the government is for the people (public). Therefore, with the supervision of public services by the Ombudsman, the management and agencies being supervised will strive to improve the quality of public services, so that the community/public will improve the quality of services that are good.

"Surely the Ombudsman will work maximally in the framework of providing input and suggestions regarding the performance of the Regional Government, then we also expect the Ombudsman to have data related to maladministration, either we still have some who are playing around, this is important to me. We want the government to provide the best service for the community and its performance to be measured. Because of that, I think we will also build a system that is good for the future of our public services," said Al Haris.

Mokhammad Najih urged Saiful to start working and take strategic steps, make internal and external coordination for information. "Today is a day for public officials who work for the state, improve their competence to follow the dynamics of change," he said.

"As a public official, do not take advantage in times of opportunity, maintain integrity and obey the oath of office," he urged.
